# K R I L I U M

**KRILIUM** is the **original** soil conditioner — developed exclusively by Monsanto Chemical Company — tested for years by soil scientists in all parts of the United States. Do not accept any untested "just-as-good" products that are being rushed to market merely to capitalize on the wide acceptance of **KRILIUM**, the original soil conditioner.

What is **KRILIUM** Soil Conditioner?

**KRILIUM** is a synthetic chemical which quickly turns hard clay and similar "problem" soils into loose, crumbly particles ranging in size from a pin-head to a pea. The result of this action is entirely

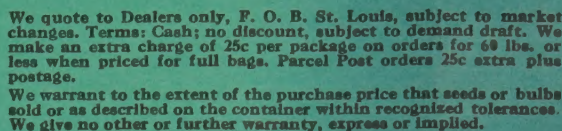

mechanical — **KRILIUM** has no fertilizer or plant food value.

We are proud to advise you, that we are one of the very first wholesale distributors to be appointed by the Monsanto Chemical Company. At present the only size available is the 5-pound canister of the Merloam Formulation of **KRILIUM**, the one especially prepared for gardens and lawns. It retails for \$6.95 each. The dealer discount is 33⅓ %, making the dealer's net cost \$4.64 each, or \$27.84 per case of six, f.o.b. St. Louis. The lithographed canister and the folder enclosed in each one will answer all technical questions as to the method of using **KRILIUM**.
